Michael/Sheraz,

Below is a request from CVAQ to meet with EPA/R9 to better understand statutory timeframes related to the SJV PM2.5 plan (see highlight below). I think this information would be relevant for both your agencies as well. Do you think a joint call with all of us would be a good idea so we can share this information with you all in a consistent manner?

Hi Cynthia,

Genevieve expressed interest in getting a better understanding of the statutory timeframes related to the PM2.5 plan. Is that the main topic for this meeting? Given we are reviewing the plan, we have to be a little careful to avoid internal/deliberative topics so any advance information on topics would be very helpful. Thank you for the information.
